The Female Mariners Project with Margaret LeJeune

Margaret LeJeune and her husband Jeffrey Kosiorek have spent the last two summers living aboard Bear, their 1987 Tayana 37. While cruising up and down the East coast, LeJeune has created photographic portraits of women who live and work on the water. In direct contrast to the antiquated images of sirens and mermaids, the images of *The Female Mariners Project* depict strong, knowledgeable, and capable captains, shipwrights, sailmakers, racers, live-a-boards, and more.

The social hour starts at 2:00 PM in the Commodore Room at the IVY Club, followed by the program at 3:00 PM. Dues this season are \$10/person which includes beer, wine, or soda. You can bring snacks or appetizers to share if you like.
